

Ribbed Cuff Socks

Loom: KB Sock Loom

Yarn: 1 Skein Lion Brand Sock Ease Yarn (color #203 in sample), DK weight

Notions: tapestry needle, 2 small buttons

Skill Level: No experience required. Read instructions and refer to all information on DVD in KB Sock Loom Kit.

Approximate Crafting Time: 8 hours per sock or 2-3 days to complete a pair of custom fitted socks.

Instructions

1. Cast On stitches using e-wrap method based on size desired. (Sample uses 52 pegs for a 8.5" width around ball of foot) See the KB Sock Loom instructions- how to measure for correct size. The loom is adjustable for the amount of pegs to be used. The cast on consists of 2 rows of e-wrap working in clockwise direction. The beginning stitch is peg adjacent to center slider. See the e-wrap explained on DVD.
2. Work the Cuff in Rib pattern with 2 flat stitches and 2 purl stitches until you have 2" cuff. See DVD-cuff explained.
3. Work in Flat Stitch for 6" to create the leg of sock. (all stitches are demonstrated on DVD)
4. Begin heel of sock using 'Short Row Method' on ½ of your pegs being used for the sock. In this sample, that would be 26 pegs, or one short side and one long side of loom. This is shown in detail on how-to DVD.
5. Start with beginning peg. Work the 26 pegs in clockwise direction. Work your pegs with 'wrap' technique until you have 8 pegs wrapped, 9 pegs unwrapped for center of heel, and 8 pegs wrapped. You can view the 'wrap' technique on the Sock Loom DVD. Once you complete the wraps your heel is 1/2 complete. You will now continue short rows in

reverse until all pegs have one strand or loop. Once your heel is complete, you are ready to continue working the foot of the sock.

6. Continue working the Flat Stitch for the foot of sock depending on length desired. Measure your foot length, back of heel to tip of toe and then subtract 2". The resulting number is the amount of inches to complete.
7. Create the toe of sock. You do this by repeating the same process as you did for heel. Be sure to start on your beginning peg to keep toe lined up with heel. Bind off as explained on the DVD. Use large sewing needle with the working yarn to sew the opening of toe. Be sure to pick up all edge stitches and close with a whip stitch for a smooth flat finish.
