### Sewing your pieces together

Sew your 4 bag pieces together lengthwise. Sew a solid piece to striped piece, then a solid and then the other striped piece. Now sew the 2 ends together to form a tube. Then fold like shown and sew the bottom seam.

For handle, roll strap like in photo and sew the long edges together. Insert strap 1" inside bag and sew to edge of knit. Repeat on the other side of bag with 2nd strap. Your bag is now complete.
