

# Frilly Girly Skirt

Designed by Isela Phelps

My little girl loves tutus and anything that has to do with frilly girly things. One day, she was putting one of my ruffle style scarves around her waist and it look really good, except that the ruffles were going sideways. I decided to remedy the sideways ruffles and got to work designing her a skirt.

**Loom:** 100 peg small gauge knitting loom.  
All-n-One Loom was used to create sample.

**Yarn:** 20 yards of worsted weight yarn (CY: Contrasting Yarn). 40-60 yards of ruffle style yarn, amount depends on the length of skirt you want to create (MY: main yarn). Sample shows a skirt with 1 skein of yarn.

**Notions:** Knitting tool, tapestry needle.  
Other: 24 inch piece of ½ inch width elastic (for Waist Band 2)

**Size:** S, M, L (18, 20, 22 inches). Sample shown L-fits around a waist that is 22 inches in circumference (fits a 7 year old). Skirt length depends on the number of Ruffle yarn skeins you used. Sample shows one skein and the skirt is 9 inch in length.

**Gauge:** Taken with worsted weight yarn: 9 sts x 12 rows =2 inches.
